

MAGDOS SERIES PUMP ACCESSORIES

TUBING KIT PVC / VITON® PART NO. 1268696

Includes: Foot Valve with integral strainer and check valve, 8ft PE suction tubing, injection nozzle, 10 ft PE discharge tubing, hose connections, and weight to keep suction line from floating. Tubing size: 1/4" x 3/8".

TUBING KIT PVC / EPDM PART NO. 1268716

Includes: Foot Valve with integral strainer and check valve, 8ft PE suction tubing, injection nozzle, 10 ft PE discharge tubing, hose connections, and weight to keep suction line from floating. Tubing size: 1/4" x 3/8".

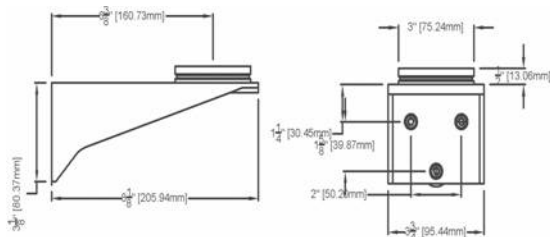

RIGID SUCTION LINE AND FLOAT LEVEL SWITCH PART NO. 1268688

The rigid suction line with foot valve, strainer and low level switch keeps debris out of the pump and keeps the pump primed at all times. The float level switch provides an indication of supply tank low-level.

The float switch works with the Magdos LT pumps to shut off the pump when the chemical level is low.

The foot valve includes an integral check valve and strainer.

The rigid suction line and level switch is made of rigid PVC and is 35 inches long.

WALL MOUNT BRACKET PART NO. 1268689

The epoxy coated steel wall mount bracket is used to conveniently mount your Magdos pump to a wall.
